

AKHIGBE HOLYWORTH EBOSELE

Lagos, Nigeria — Open to Relocation
(+234) 8141888608 — holyworthakhigbe@gmail.com

PROFESSIONAL PROFILE

Frontend-focused Software Engineer with 4+ years of experience building responsive web and mobile applications across fintech, investment, e-commerce, and enterprise platforms. Strong in TypeScript, React, Next.js, React Native, Redux Toolkit, and modern UI architecture. Experienced in translating product requirements and design systems into clean, scalable interfaces that are performant, maintainable, and easy to use. Collaborative, product-minded, and focused on delivering polished customer-facing experiences.

PROFESSIONAL EXPERIENCE

Interswitch Group, Senior Frontend Developer

Jan 2025 - Present

- Lead frontend development for customer & business-facing parking management web platforms, focusing on performance, responsiveness and real-time event updates.
- Collaborate closely with product managers, designers, and backend engineers to turn business requirements into production-ready web applications.
- Improve frontend delivery standards through code reviews, component reuse, documentation, and practical engineering guidance for junior developers.
- Built reusable React and Next.js interface patterns for dashboards, tables, filters, session views, and real-time operational workflows.

Africa Prudential Plc, Frontend Developer (Web & Mobile)

Jan 2024 - Jan 2025

- Built and maintained frontend modules for a recapitalization offer platform using React, TypeScript, and Redux Toolkit.
- Designed and implemented internal back-office dashboard interfaces for audit, reporting, and user statistics review.
- Improved frontend data handling through structured state management, reusable UI patterns, and clear API integration flows.

Finstaq Technologies, Software Engineer (Mobile)

Apr 2023 - Jan 2024

- Accelerated mobile app development timeline by 50%, delivering a presentation-ready MVP within an 8-week high-stakes startup cycle and securing a 2nd place award.
- Boosted user engagement by 40% through the strategic implementation of direct user feedback loops and performance-driven feature iterations.
- Eliminated critical production bugs through rigorous quality assurance and the implementation of automated testing protocols.

Prunedge Technologies, Frontend Web Developer (Contract)

Feb 2023 - Aug 2023

- Developed responsive enterprise-grade web applications utilizing React.js, TypeScript, and Chakra UI for optimal accessibility and performance.
- Optimized data retrieval efficiency by 20% through the seamless integration of RESTful APIs and intelligent frontend caching strategies.

SELECTED FREELANCE PROJECTS

Boss Blossoms, Frontend Developer

Freelance E-commerce Project

- Built and polished a responsive customer-facing e-commerce interface for browsing curated flower arrangements, occasion-based shopping, and bouquet discovery.
- Implemented frontend flows for product discovery, quick product actions, account access, delivery messaging, and customer support touchpoints.
- Improved the storefront experience through better spacing, layout consistency, mobile responsiveness, and premium visual presentation.

Twikkie, Frontend Developer

Freelance SaaS Project

- Contributed to the frontend of a business operations platform, translating product requirements into clean, responsive, production-facing web pages.
- Built structured interface sections for business users, focusing on clear navigation, professional presentation, and consistent page layouts.
- Improved frontend polish across content-heavy screens through better spacing, component consistency, responsive behaviour, and reusable UI patterns.

EDUCATION

Babcock University

Sep 2019 - Jul 2023

BSc. Computer Science — GPA: 4.0/5.0

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3

State Management: Redux Toolkit, Context API, TanStack Query

Styling & UI: Tailwind CSS, Chakra UI, Responsive Design, Component Architecture

Developer Tools: Git, Docker, VSCode, Netlify, Vercel, REST API Integration, CI/CD, AWS.
